kissflow

The All-in-One

Low-Code No-Code
Work Platform

Uncomplicate Digital Transformation with
the Power of Simple.

The Power of Simple

Products designed to make your work Simple.

Make **Digital Transformation** your winning strategy

Clear up IT bottlenecks and equip your team with the right technology to get work done better. Kissflow's Power of Simple lets you do just that.

Workflow Automation

- Automate and deploy business processes.
- Enable your team to rapidly design and streamline their workflows end to end.

Work Collaboration

- Deliver effective collaboration in an adaptive environment.
- Give your teams an intelligent way to openly discuss work and access conversations

Application Development

- Increase the room for innovation by turning ideas into apps.
- Modernize, automate, and digitize your enterprise grade apps at scale.

Project & Case Management

- Stay organized with project and case boards
- Resolve your cases and manage projects better by assigning and reassigning tasks, accessing data, and improving performance.
Integration

- Push, pull, and schedule data transfers automatically.
- Integrate with some of the most widely used ERP, CRM, and other core utility platforms seamlessly.

Analytics

- Turn data into meaningful insights with some serious analytics muscle.
- Simplify complex data using advanced filters, pivots, and heatmaps to tell a data backed story.

3 Steps to Champion Digital Transformation with Kissflow

1. Build a Productive Team

Create, model, automate, and deploy business processes on a unified work platform, all with very little to no coding knowledge. Empower business users to design workflows that they are familiar with, in a matter of minutes. With this all-in-one workflow-centric platform, you can effectively streamline various processes, giving you the agility to run your business operations hassle-free.

Workflow Automation **Case Management** **Approval Management**

2. Foster a Collaborative Culture

Bring your teams together. Give your teams an intelligent way to openly discuss work and access conversations. They need advanced tools that go beyond spreadsheets and emails to get work done. Plan your team's work, know who's working on what, and deliver results intuitively with minimal tracking.

Contextual Collaboration **Task Management** **Projects and Case Boards** **Reports**

3. Unlock Innovation in Your Workplace

Kissflow lets you build the applications that your business would need no matter how unique your needs are. You can modernize apps, automate processes, and digitize operations at scale. Grappling with undeserving apps? Plug the gaps with custom built apps that seamlessly integrate with your back-end systems like ERP, CRM and other core systems. Good part? You don't have to code to build these apps. Best part? You can use small snippets of code to add advanced custom components to extend your app.

Automate Processes **Digitize Operations** **Modernize Applications**
