Google Workspace

What is Kissflow?

Kissflow is a low-code/no-code work platform that helps you clean up your messy middle and get traction on digital transformation with the fastest time-to-value in the industry.

Two Powerful Platforms, Together

IT and business users can build interconnecting, sophisticated apps, processes, and boards on a single platform and integrate it with their Google Workspace in just a few simple steps.

Here's Why Google Customers Love Kissflow

1

Rapid Custom Application Development

Simple applications can be built in less than an hour, yet can still have the functionality of more sophisticated tools

2

Wide Spectrum of Use Cases

Create quick project boards, automated workflows, and multifunctional applications, along with integrations, reports, and collaboration tools

3

One Platform for Business and IT Teams

Identify operational bottlenecks with a quick visual representation of workflows.

4

Unified Experience

Google and Kissflow partnership unites business and IT decision makers to consolidate digital transformation operations on a single experience platform

5

Time-to-Value

Enable teams to build custom applications faster, increase developer productivity, and enjoy continuous improvement

Bring Your Use Case, We'll Take Care of the Rest

Digital Transformation	Process Automation	App Development	Workflow Management
Citizen Development	Case Management	Process Automation	Project Management
